Deadline for manuscript submissions:

1 August 2020

Message from the Guest Editors

The relevance of this special issue lies in the rapid spread of sustainability concept that is provoking a deep transformation in the manner we design, plan, and operate organizations. Important questions are raised, such as:

- Is – or should be – the field of humanitarian logistics concerned by sustainability?
- How sustainability is defined – or should be redefined – to fit the specificities of humanitarian logistics?
- How the sustainable aim fits the ephemeral nature of some humanitarian interventions?
- Does the sustainability concept apply to humanitarian interventions, to humanitarian organizations, or both?
- How the different stakeholders' goals can be adequately integrated and prioritized?

We expect this special issue to consolidate the most recent knowledge on the field; to promote and facilitate works filling the gap between practical needs and research; to suggest specific future research avenues; and last but not the least, to inspire researchers to engage in this important and promising research field.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility: indexed by the Science Citation Index Expanded and Social Sciences Citation Index (Web of Science), as well as Scopus and other databases.

Rapid Publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 17 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the second half of 2019).
